WHAT ATTENDEES ARE SAYING

“ Keith's presentation was not only informative but also highly engaging. His use of real-world examples and current industry trends kept the audience captivated and underscored the relevance of robust cybersecurity practices. What impressed me most was his interactive approach, encouraging questions and discussions, which fostered a deeper understanding of the material. ”

Justina Pratt, Magruder Laser Vision

“ I've had the pleasure of attending Keith Coker's cybersecurity presentation on a number of occasions, and I must say each time was an outstanding experience. Keith's expertise and passion for the subject were evident from the start. He has an exceptional ability to break down complex cybersecurity concepts into clear, actionable insights, making the topic accessible to everyone, regardless of their technical background. ”

Christina Miner, PNC Bank

Keith co-founded OrlanTech in 1995 and has grown it to be Central Florida's largest Managed IT & Cybersecurity Service Provider. OrlanTech partners with small & medium-sized businesses that share their concern and commitment for IT and security.

Keith routinely gives cybersecurity workshops to a variety of companies and organizations to educate them and their staff on the costly mistakes made as a result of cyber-crime.

Keith Coker
President - OrlanTech, Inc.

”
Fantastic instructor. Very knowledgeable and able to communicate well with attendees.
“

”
Keith was great. The session could have been twice as long. It was great and very informative.
“
